

Ilse Zamarripa's

Animation Polish Checklist

Use it wisely...

Before you *finish*!

1. **CLEAN UP** your arcs: Make sure to track what the body parts are doing.
2. **TIDY UP** timing: craft songs in your head for the actions of your shot to make it dynamic.
3. **REORGANIZE** your spacing: Make sure to have proper eases in and out.
4. **NEATEN** secondary actions: Time to work on that hair, antenna or props.
5. **SCOUR** and push: try exaggerating those overlaps, anticipations and overshoots.

**Get more eyeballs on your work.
And probably do this all over again.**
